

When you need to take care of business,
LET US TAKE CARE OF YOUR FLEET.

INTRODUCING

NES Rentals' Equipment Maintenance Service — the no-hassle way to keep the equipment you own in top condition.

One of the primary benefits of renting equipment is not having to worry about maintenance. Rental companies generally handle this for you — often, right at your job site.

But now, you can get this same service on *equipment you already own*, from the experts at NES Rentals. Our **Equipment Maintenance Service** is provided by highly skilled technicians, who use the latest portable diagnostic equipment.

What we offer:

- Equipment troubleshooting and emergency repairs
- Maintenance per OEM specifications
- Preventative maintenance and routine upkeep
- Manufacturers' warranty service
- Equipment painting
- Required annual inspections per ANSI and OSHA requirements
- Special rates on loaner equipment

What you get:

- Free repair estimates
- On-site service calls
- Enhanced worker safety
- Regulatory agency compliance
- Documentation of inspection and repair records
- Better equipment performance and longer service life
- 60-day warranty on parts and labor

Protect your equipment investment. Talk to us today.
